

# 10-Q Section Searching Now Available (continued from p.1)

The benefits of 10-Q Section Search also extend to Company Roundups. New options have been added to the Company Roundup page reflecting the availability of sections for MD&A, Legal Proceedings and Financials for the most recent quarter. Worklist functionality has also been enhanced, allowing you to add only the particular 10-Q sections you need to your Worklist rather than the entire document.

LIVEDGAR's new 10-Q Section Search makes it easy to locate precise information in 10-Q filings. Take advantage of this powerful new feature to see how easy it is to perform granular research on any part or item of Form 10-Q.

## Section Search Enhancements to Alerts and Worklist

GSI has completed several enhancements to its popular suite of Section Search tools, improving your ability to manage and organize your research.

### Section Alerts

Stay on top of the latest company information with powerful new section Alert capabilities. With the 10-Q, 10-K and 8-K Section Search features, you can set up Alerts for particular items or sections of these documents. Whenever new filings or information matching your section search criteria are added to LIVEDGAR, you will immediately receive e-mail notification delivered directly to your desktop.

### Worklist

Now it's easier than ever to organize your research results. For the 10-Q, 10-K, 8-K and Proxy Section Search features, GSI has added functionality enabling you to add key sections of documents to your Worklist for later review and output. After conducting a section search, clicking the new Add to Worklist link will add the desired sections of the documents to your Worklist. The Worklist page will display a description of the section, as well as document information including company, form type, date, number of pages and more.

This special offer expires on November 30, 2005. Don't miss this limited time opportunity to try these powerful additions to LIVEDGAR for free.

## 10-Q Section Searching Now Available

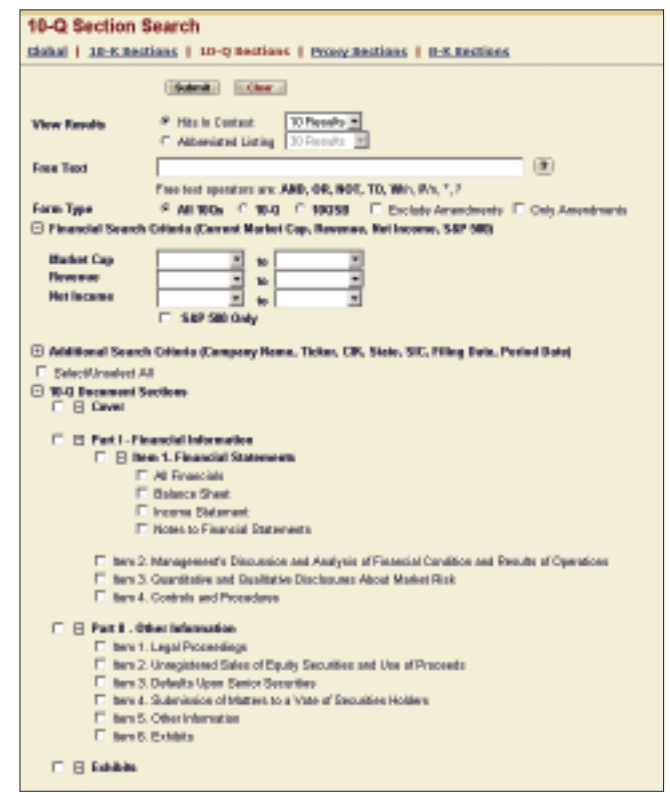

GSI announces the launch of 10-Q Section Search, a powerful new feature that further expands our robust section search capabilities. Now, along with LIVEDGAR's 10-K, 8-K and proxy section searching capabilities, you can also focus your research on any part or item of Form 10-Q to pinpoint the information you need.

10-Q Section Search presents 18 unique sections of Form 10-Q in a convenient check box list, allowing you to conduct targeted research across GSI's collection of over 300,000 original and amended Form 10-Q filings dating back to 1997. By simply checking boxes you can limit searches to the sections of Form 10-Q most likely to contain what you need. For added flexibility, check the Exhibits box to restrict searches to only the exhibits attached to Form 10-Q. You also have the option to define the type of Form 10-Q, and select whether to include Only Amendments or to Exclude Amendments from your results. And for extremely precise research, additional

search fields allow you to specify key words or phrases, market cap, revenue, net income, ticker, CIK, SIC, date and more.

10-Q Section Search also provides powerful new Alert capabilities to help you stay abreast of key company disclosures and trends. Set up Alerts on specific 10-Q sections, such as unregistered sales of equity securities and use of proceeds, to receive immediate notification when new 10-Q filings meeting your search criteria are added to LIVEDGAR.

## GSI Introduces Comprehensive Securities Regulatory Library

The addition of the Securities Regulatory Library to LIVEDGAR means users can now access virtually all current and historical information issued by the SEC, NASD and NYSE from one location.

The rules and regulations issued by the nation's major securities regulatory organizations drive how you approach all of your securities compliance work. Now, with the introduction of the Securities Regulatory Library to LIVEDGAR, you can easily research and cross-reference the entire body of regulatory information issued by the NASD, NYSE and SEC from one location. For example, easily research:

- How the NYSE and NASD have incorporated Sarbanes-Oxley Act compliance measures into their respective regulatory frameworks.
- Hundreds of regulatory enforcement documents to find instances of improper IPO distribution activities or "spinning."
- Self-Regulatory Organization rule changes from their initial submission to final approval by the SEC.

From the Securities Regulatory Library, which can be accessed from the Main Menu, you can research each library individually or all the libraries at once. Under the Search All heading you can select from 78 check box options logically organized under 12 categories to locate proposed and final rules, enforcement actions, interpretation memos, member bulletins, speeches, testimony and more. Plus you can leverage the Free Text, Release/File No. and Filing Date fields to further define your search and conduct even more focused research on any topic in the library.

From any area in the Library, you can take advantage of additional powerful LIVEDGAR features such as Alerts and Worklist. Select any subset of your search results and add them to your Worklist for review at a later time. Or set up an Alert on any regulatory issue and be notified via e-mail as soon as any new material matching your search criteria is added to LIVEDGAR.

LIVEDGAR's SEC Library content continues to be the comprehensive resource you have come to rely upon and its existing content has been fully integrated into the expanded Securities Regulatory Library.

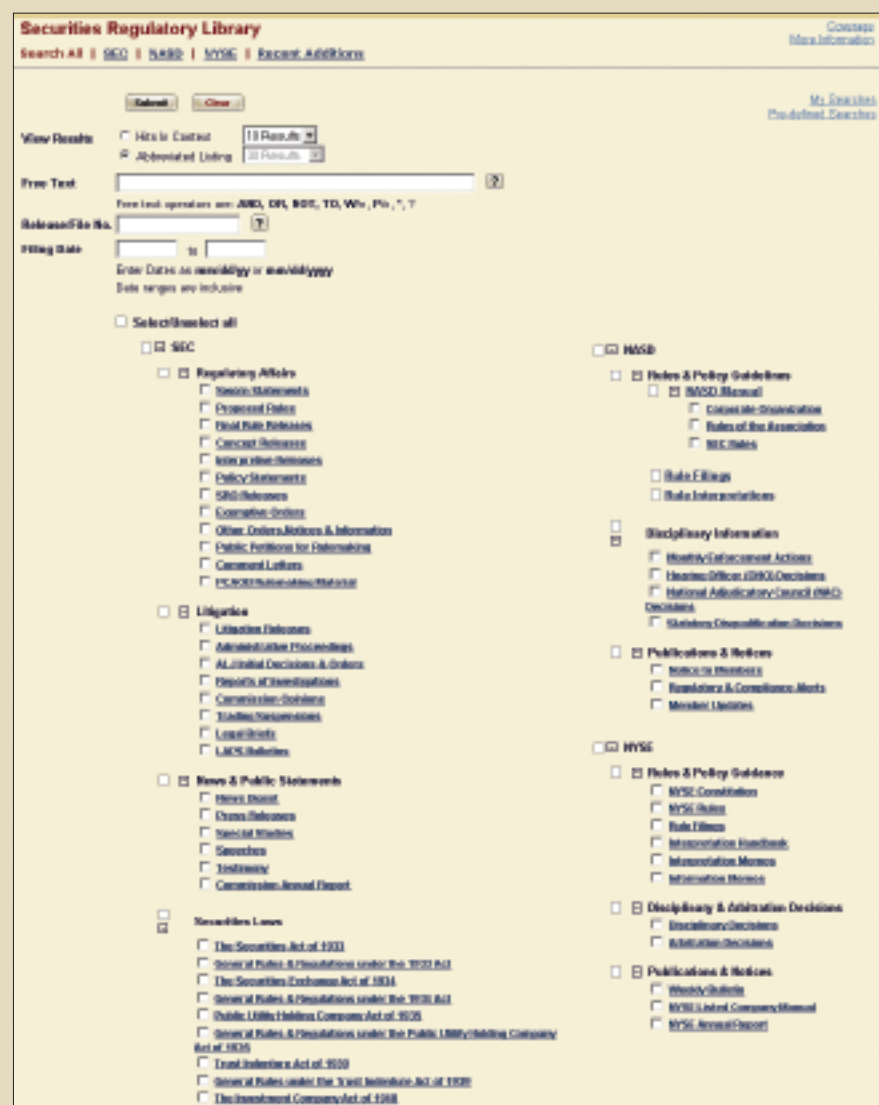

The SEC collection offers a wealth of information and items in the SEC area are updated every two hours except items under the securities

laws and regulations categories, which are updated weekly. Content from the NASD and NYSE areas is updated daily.

These collections provide extensive historical coverage with most topics including information dating back to the 1990s and many dating back even further. For example, the Library includes SEC Final Rules dating back to 1962, NYSE Interpretation Memos dating back to 1976 and NASD Notice to Members dating back to 1964.

New additions to the collection are on-going and by calendar year end 2005, GSI will be the only provider to offer, among other items, NYSE Weekly Bulletins dating back to 1922 and NYSE Annual Reports dating back to 1933.

Whether you are trying to stay current on today's stringent securities compliance standards or research changes to the regulatory environment over time, LIVEDGAR's Securities Regulatory Library is the ideal one-stop resource for all your regulatory research.

## Company Search Enhancements Simplify Research

Powerful enhancements to LIVEDGAR's Company Search are now available, making it easier than ever to quickly pinpoint the company information you need.

The new Hide Insider Filers checkbox, located on the Simple and Advanced Company Search pages, reduces research clutter. When the box is checked, all filers that only file insider filing Forms 3, 4, 5 and/or 144 are excluded from the search, providing cleaner results.

Several prominent enhancements have also been made to the Company Search Results page, helping you to quickly hone in on needed information. Now, when you conduct a Simple Company Search by company name, search results are displayed on a split screen. Active Filers, defined as companies that have made an SEC or SEDAR filing within the last 12 months, are shown at the top of the screen. All Companies that meet the search criteria are shown in the bottom half of the screen.

The new layout of the Search Results page displays expanded content, providing you with important information at a glance. For each listed company, LIVEDGAR displays the date of the company's latest filing. The new Transactions link provides access to any existing mergers and acquisitions filings, registrations, prospectuses, international prospectuses, 144As, SEC staff review correspondence, and No-Action letters. Additionally, seven new icons have been added to the Search Results page, enabling you to access key information and LIVEDGAR reports with the click of a mouse.

- **Search Filings** – Opens the Global Search page for that company and pre-populates the CIK. From here, you can add additional search parameters for more granular research.
- **Add Alert** – Takes you to the Alerts page where you can add an Alert for the company.
- **Filings List** – Generates a printable list of all filings for the company.

- **Financials** – Opens the Reported Financials page where you can view and download the company's income statements, balance sheets and cash flow statements.
- **Roundup Report** – Opens the Company Roundup page, where you can specify the information you want to include in the Company Roundup by checking the appropriate boxes.
- **Exhibits Report** – Generates a listing of all exhibits filed for the company.
- **Insider Report** – Generates a listing of all insider filings associated with the company.

Finally, enhancements have also been made to the Advanced Company Search page. Two new check boxes allow you to limit searches only to active filers and/or hide insider filers, providing you with the capability to conduct even more focused research.

These powerful new enhancements to LIVEDGAR's Company Search simplify the process of conducting comprehensive company research.
